Countryside H Neighborhood Roadway Improvements

Dear Resident:

Private Utility Reconstruction Schedule

- Gas (CenterPoint Energy) Update:
 - CenterPoint Energy's subcontractor has finished work in the neighborhood. Restoration efforts in areas that are not affected by the City's reconstruction project should begin next week. Restoration of the remaining disturbed lawn areas within the right-of-way will be completed later this year as part of the neighborhood reconstruction project.
- Xcel Energy
 - Crews will continue to mobilize in the coming weeks to move conflicting power poles and street lights as needed.

Project Schedule

Crews have completed water improvements in Stage I of the project by replacing the hydrants and valves. Storm and sanitary sewer structures and pipes will continue to be upgraded as planned. Portions of curb needed to perform the work will be removed. During this work, the contractor will let you know if you will be unable to access your driveway for the day. For others trying to access your driveways, it may require that you enter the street from the opposite side that you normally would. We appreciate your understanding.

A subcontractor will continue installing sump drains throughout Stage I. This work will occur just behind the curb. Crews are currently finishing up on Olinger Circle.

Sump Drain

If you are interested and would like more information about connecting into the sump drain which will be newly installed throughout the project, please let me know. This should be constructed after completion of your stage of the project.

Communications

Please contact me if you have any questions or comments regarding this project. You can reach me at 952-826-0444 or bfisher@EdinaMN.gov. For more information about emergencies, non-emergencies and site safety, or what to do when you have special events or home improvement projects planned, visit www.EdinaMN.gov/countryside_h.

Please encourage your neighbors to sign up for City Extra, as this will be our primary means of communication throughout the project. Visit www.EdinaMN.gov/CityExtra for more information.

The City of Edina and Northwest Asphalt thank you in advance for your patience and cooperation throughout the project.

Regards,

Brad Fisher
Engineering Technician
